SUMMARY

As a **Full-Stack Developer** with **3+ years of experience**, I have built and optimized **6+ scalable web applications** and developed **10+ backend services**, resulting in a **20% improvement in efficiency**.

In the last 3 years, I have designed and implemented **RESTful APIs**, **microservices**, and **third-party API integrations**, including **LLM APIs** like **OpenAI**. I specialize in **real-time features** using **Socket.IO**, **state management** with **Redux Toolkit**, and **automated testing** with **Jest**.

I am passionate about **building high-performance applications**, optimizing for **speed, scalability, and security**, and collaborating with **cross-functional teams** to deliver **cutting-edge digital platforms**.

SKILLS

Computer Languages: Javascript, SQL, Java, JavaScript, CSS, HTML, NoSQL, TypeScript

Software Packages: MongoDB, MySQL, Express, Next, React, Bootstrap, NodeJS, Redux, Tailwind, Linux, Figma

Additional Courses: Data Structure

Soft Skills: Communication Skills, Critical Thinking, Teamwork, Decision-making, Time management

Others: AWS

EXPERIENCE

Incaendo Technology Pvt Ltd

Software Developer

NOIDA, INDIA

Feb 2022 till date

- **Engineered a 20% boost in system performance** by refactoring legacy code, optimizing database queries, and slashing API response times.
- **Accelerated content creation** with an AI-powered editor, integrating real-time analytics, AI-driven keyword extraction, and text-to-audio transformation.
- **Revolutionized content management** with a scalable CMS, enabling seamless SSO authentication, dynamic editorial workflows, and lightning-fast content delivery.

- **Eliminated performance bottlenecks**, reducing API response times by 15% through deep database optimizations and query enhancements.
- **Enhanced user engagement** by developing interactive UI components, leveraging React Toolkit for state management, and enabling real-time collaboration with WebSockets.
- **Maximized payment success rates** by integrating secure Stripe, Apple Pay, and Google Pay solutions, ensuring frictionless transactions.
- **Architected a high-performance operations dashboard**, equipping teams with live monitoring, predictive analytics, and intelligent alerting.
- **Supercharged application scalability** with AWS integration—leveraging S3 for storage and AWS SES templates for dynamic, high-impact email automation, boosting engagement and efficiency.
- **Drove platform stability and resilience** with end-to-end test coverage using Jest & Testing Library React.

EDUCATION

B.Tech Electronics and Telecommunication Engineering

Dr Babasaheb Ambedkar Technological University, Lonere

RAIGAD, INDIA

Jun 2017 to Aug 2021

Intermediate

Priya Vidya Vihar, Nagpur

NAGPUR, INDIA

jun 2016 to Mar 2017

Matriculation

Seth Ramnath Loiya, Kamptee

KAMPTEE, INDIA

jun 2014 to Mar 2015

ADDITIONAL INFORMATION

- Participated in different coding contests arranged by the company.
 - Awarded Employee of the Month three times in the past three years for outstanding performance and contributions.
-
